Health Report Card

Attention Parents/Guardians:

Warwick School District has now created an on-line health report card for each student in Warwick School District. This health report card provides the health assessment information from the mandated health screenings that the school nurses have completed for your child for this current school year. This information will be updated yearly after the health screenings are performed. The information includes yearly height, weight and BMI measurements; yearly near and far vision screenings; hearing screenings for K-3, 7th, and 11th grades; and scoliosis screenings for 7th grade.

In order to access your child's health report card, you will need to set-up a parent portal account, if you have not already done so, by following these directions:

Step 1: Go to <https://www.warwickisd.org/eparents/>

Step 2: Click on "Create Account"

Step 3: Type in your email address and create a Username, then click on "Continue"

Step 4: Your email password will be sent to your email account. Check your email for your password.

Step 5: Return to <https://www.warwickisd.org/eparents/> and login by entering your username and password.

Step 6: Optional Step: Click on the "Account Settings" tab and check "Yes" if you would like to receive emails about missing assignments. Select the overall average that you desire to be notified when the average grade in any class falls below the percent you selected.

Step 7: Click on "Add Student" tab. You will need your child's Student ID number and web grade password.

Step 8: Click on "Show Students" and click on "Show Health Report Card." Information regarding your child's grades, attendance, and bus information may also be accessed.

Please feel free to contact your child's school nurse if you do not have access to this information via computer or regarding any questions you have about your child's health report card.

Sincerely,

Carli Youndt, School Nurse
Warwick High School

Karen Umble, School Nurse
